

*Helping keep  
airports open  
for business*

“ The Multihog MH90 with the Combi Snow Plough/Sweeper attachment on the front and the De-icer sprayer on the rear means that three tasks can be executed with one machine. This is perfect for airport operations. ”

**Robert Bruce, Motor Transport Supervisor,  
Gatwick Airport**

“ We needed to find a specialist machine that would provide a more cost effective solution and when we saw the Multihog in action we realised that we had found the answer. ”

Steve Webb, Head of Motor Transport, Bristol Airport

Versatile, cost effective, rugged, reliable. Use The Multihog in the Winter as...

...a snow plough...

...a snow blower...

...a salt spreader...

...a de-icer...

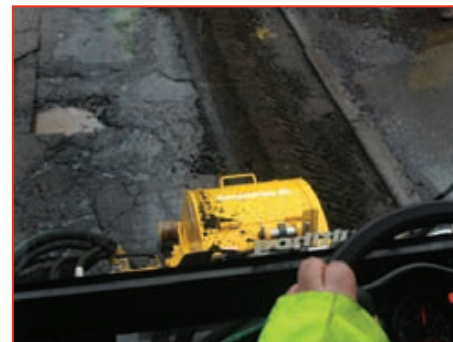

...in the summer it's...

...a **patch planer**...

...a **line remover**...

...a **cylinder mower**...

...a **forklift**...

...a **barrier cutter**...

...a **sweeper and more!**

// I liked the easy operation and the fact that the lads can swap the tools on the front and rear of the Multihog in minutes if we have another job requiring different attachments. //

David Johnston, Managing Director, McCreath Taylor

*The Multihog MH90 equipped with the Combi Snow Plough/ Sweeper on the front and the De-icer on the rear is the perfect kit to tackle those adverse winter conditions which attack airport stands.*

*and it's a joy to drive...*

*// The Multihog and its range of attachments offers an excellent and extremely versatile solution for the snow clearance and de-icing of airport stands. It's truly outstanding in the snow! //*

**Brendan Malone, Chief Transport Assistant, Dublin Airport Authority**

*...with a great spec!*
